

# CV Magic Bus

Nationality: MAN, German

Birthdate: 20.01.1979

„If the going gets weird, the weird turns pro.“ - Hunter S. Thompson.

This particular vehicle inevitably awakens thirst for adventure and curiosity; even if the viewer happens to pass by. Earlier dreams are awakened again and new wishes arise. The yearning for adventure manifests in steel and metal. And you just want to know what it's all about.

The bus serves as an unconventional, mobile showroom and meeting place. It can be used as a conference room, stage, exhibition venue, workshop, projection screen for light installations, bar, restaurant or seminar room - And all this while driving.

-----  
30 seats + driver in current configuration allowed Upgrade to up to 90 people is possible  
cabriolet configuration  
2 refrigerators  
conference room  
Music system on all floors  
Sockets (230V) available at all seats  
fully equipped kitchen  
large storage room, 10tons additional load  
Wifi all over Europe

## Journeys so far:

October 2017

### **Wo lang?**

*“WE HAVE A BUS AND WILL DRIVE THROUGH GERMANY TO GET A NEW IMAGE OF DEMOCRACY.”*

Serving as a mobile forum for discussions and art performances with public involvement related to the topic of “direct democracy” in the center of 9 different cities all over Germany for the “foundation of direct democracy” and “Wo-lang” conference.

June 2017

### **KLUB Dialog**

*“If someone goes on a journey, then, in addition to glorious stories, he collects one thing above all else: inspiration.”*

Discovering the City of Bremen from a different angle by visiting four different unusual locations in one afternoon. Food got cooked and served in the Bus while being on the road.

June 2017

### **FABMOBIL**

„*FABMOBIL - A RIDING ART AND DESIGN LAB*“

The Fabmobil is a double-decker bus equipped with digital technology and machine tools and offers workshops and courses. A traveling art, culture and future laboratory. The Bus was borrowed to proof the concept of a moving FabLab. Success.

Summer 2015

### **Spot Delivery Tour #2- the Tour Dreams are made of**

In order to connect different DIY crews throughout Europe and to support skateboarding at its very core, the Bus got stuffed it with tools, material and people and went on an adventure through eight European countries. At each stop we have build a few new spots, taught the locals how to build ramps themselves and skated the new parks, only to leave next morning and do the same thing again in another country. People tagged along for a stop or two or stayed for the whole tour altogether, all while sleeping, eating and living on the road. After about 4.300 km, the Bus crossed the Alps twice, the tour ended in Copenhagen, where the remaining few have build the spot of the 2015 Copenhagen Open finals, an international competition for the world's best skateboarders.

Winter 2015

### **Lunch of Summer collection for Levis Straus**

To showcase a new jeans collection and for the screening of the „Spot Delivery“ tour Video, the Bus went all the way to Madrid in the middle of the Winter. We got accompanied by two Artists who mounted 10 Screens all over the Bus to show the Movie to the packed audience in the bus during a ride through the city of madrid by night.

Summer 2014

### **Spot Delivery Tour #1**

*“The beauty of skateboarding does not solely lie in battling tricks and overcoming your personal fears, it's also the traveling, the people you meet and the things you experience and create along the road, on and off your board.”*

The Bus got equipped with a concrete Mixer and a Kitchen and left germany for the first time for a journey through europe, to support local DIY skateboard Crews with the tools, volunteers, materials and catering. The route went from hannover over, cologne, through the netherlands crossing lille and ended in lyon / southern france.
